

Purpose in Pandemics

Episode 4: Be Engaged Small Group Questions

1. When you think about the gifts and skills that God has uniquely equipped you with, what comes to mind?
2. We learned in this episode that you are unable to do what God has called you to if you are living in fear. How has fear prohibited you from living what God has called you to during this pandemic? If it hasn't, how have you prevented fear from interfering with your calling?
3. Dr. Joshua Bogunjoko stated that COVID-19 is not just a medical problem, but also a social and economic one as well. How do you think the church can help to serve the needs of this multifaceted problem that extends to so many areas of life?
4. Just like a human body has many parts that serve different purposes, every role, gift, and skill make the body of Christ complete and fully functional. Reflect on how you've seen friends, family, coworkers, etc. really lean into their talents and gifts to help people during this pandemic. Share some examples with your group.
5. Spend some time with your group thinking about ways you could use your individual skills and talents to be the hands and feet of Christ and show His love to others. You might even form a group plan so you can serve your community together during this pandemic.
